●

### ESSENTIALS IN PLANTING BARE-ROOT ROSES

1. Spread the root system.
2. Use only clean soil in the hole—no manure.
3. Avoid planting too deep.
4. Pack dirt firmly—leave no air pockets.
5. Water thoroughly several days in succession to get the soil settled around the roots.
6. Refrain from picking first crop of blooms in order to build up a strong bush.
